

Filtek™ Supreme XT Universal Restorative

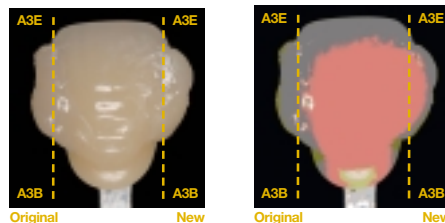

New optimized shading system brings esthetics to a new level.

- Optimized shading makes it easier to achieve beautiful esthetics with either single-shade, two-shade or multi-shade technique
- 3M ESPE's unique nanotechnology
- Wear equivalent to enamel
- Exceptional handling and flow
- Easy to achieve excellent polish and polish retention
- **NEW!** Clear Translucent shade adds depth to lighter, multi-shade restorations
- Available in 35 shades and 4 opacities

Featuring the same highly regarded physical properties and excellent clinical performance as its original nanocomposite, 3M ESPE now introduces Filtek™ Supreme XT Universal Restorative – showcasing an optimized shading system that more accurately matches natural tooth color.

Dentists have long appreciated our range of shades and opacities. Now, after working with clinicians in Europe and the United States for two years, we've improved our shades, making excellent esthetic results even easier to obtain – while still maintaining the benefits our patented nanotechnology delivers.

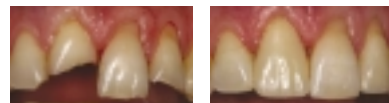

This tab illustrates the difference between the original Filtek™ Supreme and the new Filtek™ Supreme XT applied to a vita® shade tab. Note the improvements, especially on the unsupported areas of the tab. This means better results in the critical Class III and IV restorations.

Second illustration was made by using a filter to force the image to be made of only 4 colors. This technique, known as posterizing, highlights both the difference between the two products as well as the blend achieved with Filtek™ Supreme XT.

The benefits:

- Easier to match natural tooth color.
- Virtually undetectable restorations – Improved shades blend easily and provide an outstanding chameleon effect.
- Dentist-defined handling – Excellent sculptability for restoring natural shape and function. Non-slumping. Non-sticky.
- Three years of clinical history let you choose it with confidence for both **anterior and posterior** restorations.

In this challenging case, Dr. Claus-Peter Ernst, University of Mainz, Germany, used both single-shade (body opacity) and multi-shade approaches to restore a severe trauma case. Note the suitability of this technique even in the case of large restorations.

Filtek Supreme XT Universal Restorative Refill Syringes

Dentin Shades

3910A1-D	1 Syringe 4g, Shade A1D
3910A2-D	1 Syringe 4g, Shade A2D
3910A3-D	1 Syringe 4g, Shade A3D
3910A4-D	1 Syringe 4g, Shade A4D
3910A6-D	1 Syringe 4g, Shade A6D
3910B3-D	1 Syringe 4g, Shade B3D
3910C4-D	1 Syringe 4g, Shade C4D
3910C6-D	1 Syringe 4g, Shade C6D
3910W-D	1 Syringe 4g, Shade WD
3910XW-D	1 Syringe 4g, Shade XWD

Body Shades

3910A1-B	1 Syringe 4g, Shade A1B
3910A2-B	1 Syringe 4g, Shade A2B
3910A3-B	1 Syringe 4g, Shade A3B
3910A3.5-B	1 Syringe 4g, Shade A3.5B
3910A4-B	1 Syringe 4g, Shade A4B
3910B1-B	1 Syringe 4g, Shade B1B
3910B2-B	1 Syringe 4g, Shade B2B
3910B3-B	1 Syringe 4g, Shade B3B
3910C1-B	1 Syringe 4g, Shade C1B
3910C2-B	1 Syringe 4g, Shade C2B
3910C3-B	1 Syringe 4g, Shade C3B
3910D2-B	1 Syringe 4g, Shade D2B
3910W-B	1 Syringe 4g, Shade WB
3910XW-B	1 Syringe 4g, Shade XWB

Enamel Shades

3910A1-E	1 Syringe 4g, Shade A1E
3910A2-E	1 Syringe 4g, Shade A2E
3910A3-E	1 Syringe 4g, Shade A3E
3910B1-E	1 Syringe 4g, Shade B1E
3910B2-E	1 Syringe 4g, Shade B2E
3910D2-E	1 Syringe 4g, Shade D2E
3910W-E	1 Syringe 4g, Shade WE

Translucent Shades

3910G-T	1 Syringe 4g, Shade G(rey)
3910V-T	1 Syringe 4g, Shade V(iolet)
3910Y-T	1 Syringe 4g, Shade Y(ellow)
3910C-T	1 Syringe 4g, Shade C(lear)

Professional Kit Syringes

3910P	12 Syringes, 4g each, Shades A3D, A4D, B3D, A2B, A3B, A3.5B, A1E, A2E, A3E, B2E, D2E, Translucent YT
