

Admira® Caps

Admira in direct application Caps

Indications

- For cavities classes I to V
- Reconstruction of traumatically affected anteriors
- Veneering of discoloured anteriors
- Correction of shape and shade for better aesthetics
- Splinting, locking of teeth
- Repair of veneers
- Core build-up
- Indirect inlays

Advantages

- Excellent aesthetics
- High biocompatibility
- Proven for years
- Non-sticky, easy modelling, good marginal adaption
- Lower shrinkage than conventional composites
- Tooth-like thermal expansion behaviour
- Excellent adhesion to dentine and enamel with Admira Bond
- Abrasion-resistant and stable colours
- Ideal for all classes
